AUSTRALIA

# Introducing Elements

Combining state of the art manufacturing techniques and the highest quality Australian hardwood timbers, Spotted Gum, Blackbutt and Ironbark, this versatile flooring product creates a unique look for residential living spaces, office environments and the hospitality industry.

## SUSTAINABILITY

Ironwood is committed to a minimum waste policy and this product is an outcome of that commitment.

Our process of combining shorts and off-cuts, delivers an unparalleled sustainability outcome.

Importantly, timber movement is limited with minimal expansion or contraction.
